THE PROTESTS AT EVIAN-

Get on the bus!

The G-8 summit will take place between the 1st and 3rd of June in Evian on the Leman lake about 12 miles from Geneva. From Thursday 29th May alternative summits with open debates, meetings and discussions will be set up in Annemasse (very close to Evian). On Sunday the 1st June in the morning, a huge cross border demonstration will take place between Geneva and Annemasse. That afternoon peaceful and non-violent blockades of the summit will be set up to disrupt the G-8 summit organisation. This will be a symbolic act showing the opposition of the people of Europe to the war makers.

Globalise Resistance

is an international activist networking group, which strives to build and maintain communications and co-ordinated action among grassroots activists. It involves people from many political or campaigning organisations, and many from none, and does not subscribe to any distinct ideology.

Globalise Resistance convenes many meetings, video screenings and forums on issues such as Third World Debt, War, Global Warming, Genetic Engineering, and Racism. This year we've had speakers such as Dan Baron from the MST- the Brasilian Landless Movement; Kevin Danaher, one of the main organisers of the Seattle Demonstration against the WTO; Mike Davis, Anti Vietnam War movement organiser and author of City of Quartz and George Monbiot, author of Captive State.

Over the last period Globalise Resistance has organised and actively been a part of activity both locally and internationally. We mobilised hundreds of Irish people to protest the G8 in Genoa 2001, and are going to put Bush under seige when we strike back at the Empire when the G8 meet this June in Evian. We helped to organise marches against the racist murder of Zhao Liu Tao in January 2002, against the police violence of Mayday 2002, and organised hundreds to go to the European Social Forum in Florence in November 2002. The ESF helped co ordinate the international day of action against War on February 15th, which was the biggest protest in human history.

We are organising the greatest possible number of protesters from Ireland to Evian. We aim to send a message to the world leaders that we will not stand aside while they wreck the planet and its people with war and poverty. Join us!

STOP THE G8- the G WHO?

The G8 are effectively an unelected world government. The G8 are 8 countries yet they decide the fate of the 6 billion people on the planet. Their secretive meetings have a profound impact on every aspect of our lives. They meet annually and set the agenda for the global economy and it's political direction.

The G8 direct the policies of the World Bank, the IMF and the World Trade Organisation. These institutions have ravaged the third world, with countries paying more on debt repayments than on health and education combined. 1% of the wealthiest people on the planet have an income equal to that of 57% of the most impoverished-the result is that each day 19,000 children die of starvation. Here in Ireland IMF and WTO rules are eagerly applied by the FF/PD Government in privatising water, waste management and transport, and viciously cutting funding in public services such as health and education.

OUR WORLD IS NOT FOR WAR

The G8 returns to Europe in June after Bush and Blair's bloody war on Iraq. On Feb 15th millions of people across Europe marched against that war. Iraq is in ruins and the US is occupying the country to control its oil and have another base in the region. Now they are setting their sites on Syria. They want the 21st Century to be one of war and imperialism. We will continue that movement against war by putting them under siege in Evian.

THIS WORLD NEEDS REAL DEMOCRACY

Their war on terror has been used in every country as an excuse to crack down on opposition movements and attack civil liberties. They refused to listen to the millions against war. We will show that we will not be intimidated or frightened from exercising our right to protest and that real democracy comes from people power.

ANOTHER WORLD IS POSSIBLE

Since the Battle of Seattle in 1999 a new international movement for global justice and against war has been born that unites trade unionists, environmentalists, socialists, anti capitalists and many others. The G8 protests is the vital next step in the building an alternative to a world dominated by war and capital. The G8 protests are backed by the main French Trade Unions, Debt and Development, ATTAC, the French Socialist Party, movements from Italy, Greece, Germany, Spain and many others. Globalise Resistance is mobilising here in Ireland. Come join the movement and get to Evian to say that 'another world is possible'
